Hello! I'm Lene

Frontend development student at Noroff with a background in retail design and visual communication. I enjoy building responsive interfaces and working with clean structure and thoughtful systems. My projects focus on semantic HTML, structured CSS, and vanilla JavaScript. I am motivated by learning in collaborative environments and developing practical skills through real projects.

PROJECTS

Rainydays – E-commerce Project
Responsive web shop built with semantic HTML and structured CSS. Focus on accessibility, layout systems, and product page design.

JavaScript Application
Dynamic application using vanilla JavaScript with API integration and DOM updates.

Semester Project
Complete website project from planning and design to development, testing, and deployment.

Portfolio Website
Single page application showcasing frontend projects and development work.

EDUCATION

Noroff School of Technology and Digital Media | Frontend Development
